Thank you for your purchase of Puzzle 2 from BANG! 3. To ensure the maximum life and utility of your clue, please pay attention to the following warnings:

1. Any duplication or retransmission of the clue without the express written consent of its designer, BANG! 3, and the Berkeley Chamber of Commerce is strictly prohibited.

2. Do not incorporate the clue into a piece of blackmail, ransom note, or other accessory to criminal activity. Doing so is a violation of U.S. law and will result in immediate dismissal from the game.

3. Do not expose this clue to firestorms, infernos, or lightning. Doing so may cause it to spontaneously combust.

4. Do not operate the clue while under the influence of alcohol, drugs, or other mind-altering substances.

5. Do not attempt to combine this clue with other puzzles, games, or clues. Doing so may result in dangerous interactions which BANG! 3 will not be responsible for.

6. Do not expose the clue to excessive humidity, extreme temperatures, or high barometric pressures. Keep clue below 451 degrees Fahrenheit at all times.

7. Do not fold, spindle, or mutilate the clue.

8. Operation of the clue is illegal in Oregon, Washington, and Idaho. Do not attempt to carry the clue into these states.

9. Do not attempt to use the clue if it has turned yellow, orange, or blue. Usage of the clue under these conditions can result in severe nausea.

10. Use caution when attempting to use the clue under conditions of poor visibility such as mist, fog, or sleet.

11. Do not attempt to make the clue into a collage, paper airplane, or origami. This will significantly reduce the usefulness of the clue.

12. Do not attempt to change the phase of the clue by sublimation, liquefaction, or conversion to plasma. The warranty does not cover any damage caused by such attempts.

13. Do not attempt to modify, alter, or reverse engineer the contents of this clue. Doing so is a violation of the clue's license agreement and will terminate your license to legally use the clue.

14. Do not expose the clue to organic solvents such as acetone, toluene, or benzene. This may produce toxic gases which could be harmful or fatal.

We hope you enjoy your new clue!
